## **Field survey to focus on correcting U.S. 50 elevation at spot in Reno County**

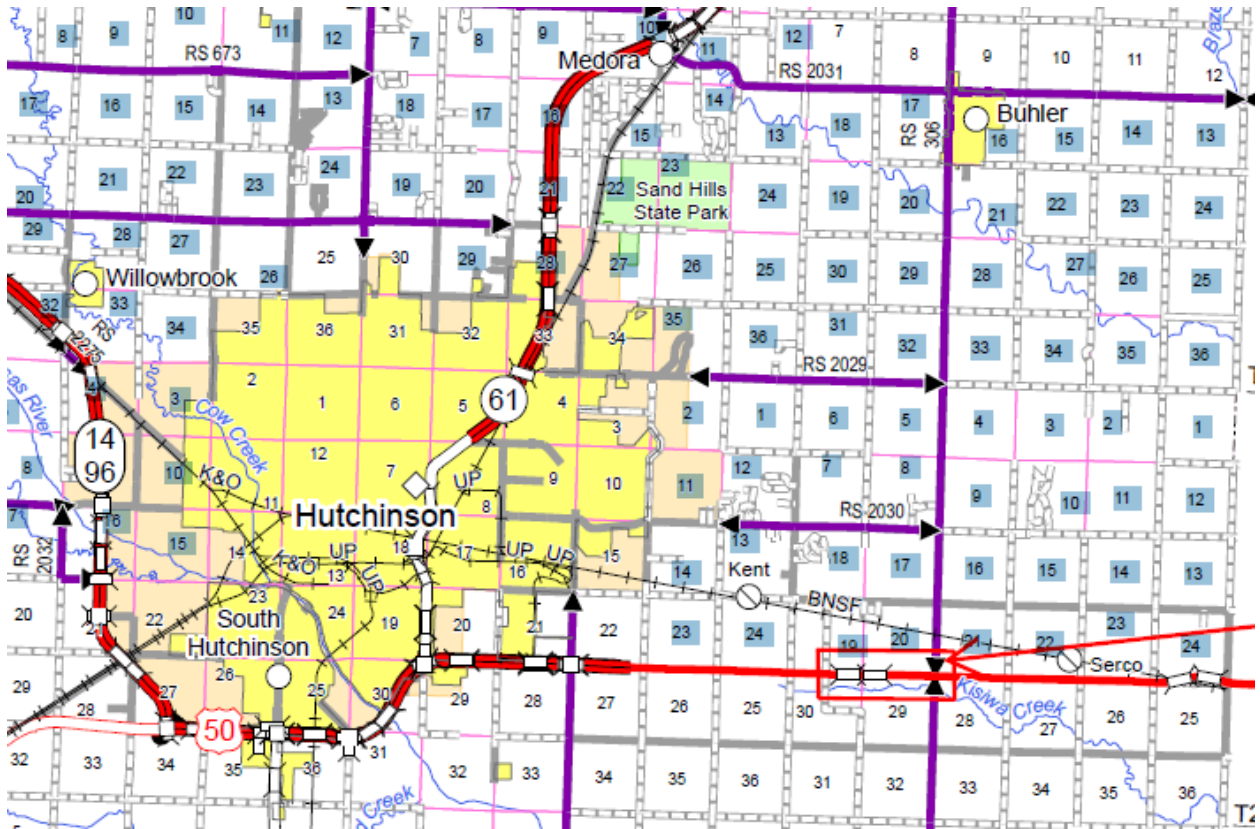

A field survey for a proposed project to correct the elevation of U.S. 50 just east of Brandy Lake Road in Reno County is scheduled to start around Monday, April 5.

The field survey – estimated to be completed by May 21 -- will gather information needed for the detailed design of the proposed improvement.

A member of the survey crew first will contact property owners and/or tenants for permission to enter private property. Survey activities will include the use of survey instruments on the ground to determine locations of existing features within the survey corridor.

Marty Long, P.S., Survey Project Manager, CFS Engineering, will be in charge of this survey for the Kansas Department of Transportation.

**The map below shows the approximate project location, marked by a red arrow.**
