### **Field survey is for guardrail sites on U.S. 56 in Rice County**

A field survey for improving eight guardrail sites on U.S. 56 in Rice County is expected to begin around Monday, Oct. 4.

The proposed improvements would be at the eight locations on U.S. 56 from Lyons east to the county line.

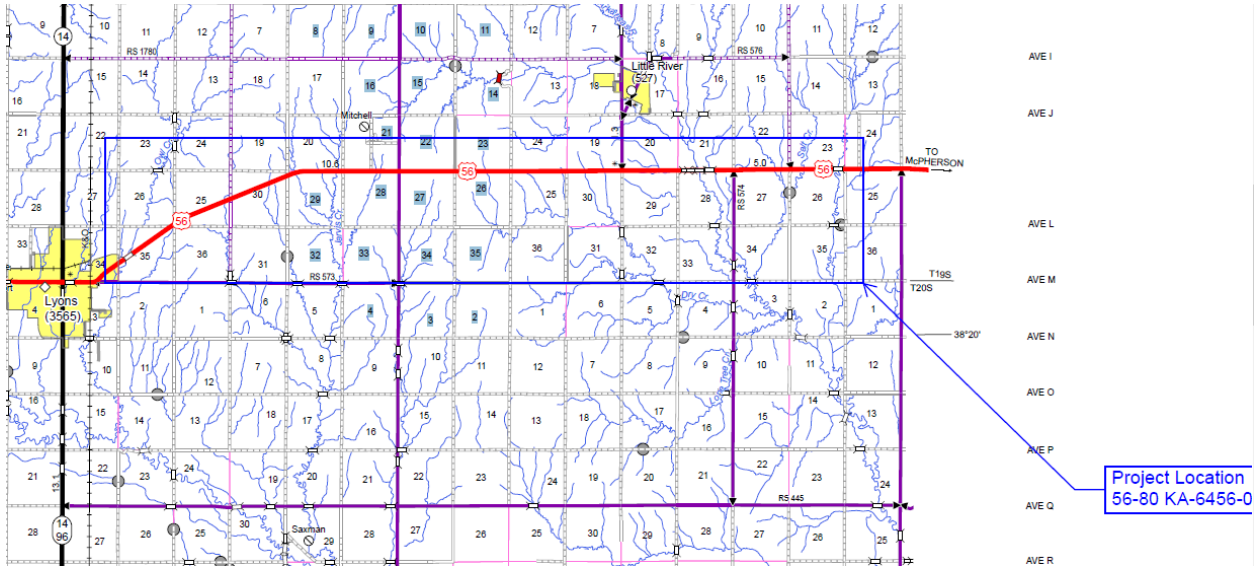

The field survey will be based on the existing alignment.

The survey – estimated to be completed by Oct. 15 -- will gather information needed for detailed design of the proposed improvements.

A member of the survey crew first will contact property owners and/or tenants for permission to enter private property if needed. Survey activities will include the use of survey instruments on the ground to determine locations of existing features within the survey corridor.

Kara LaRiviere, P.S., Survey Project Manager, Bureau of Right of Way, will be in charge of this survey for the Kansas Department of Transportation.

**Below is a map with the project location outlined.**
