### **Field survey for proposed U.S. 54, East Kellogg expansion to begin soon**

A field survey will start soon for proposed expansion of U.S. 54 (East Kellogg) in Wichita from 127<sup>th</sup> Street east to half a mile east of 159<sup>th</sup> Street in Andover.

The approximate length of the survey will be 3.7 miles. The survey will be based on the existing alignment.

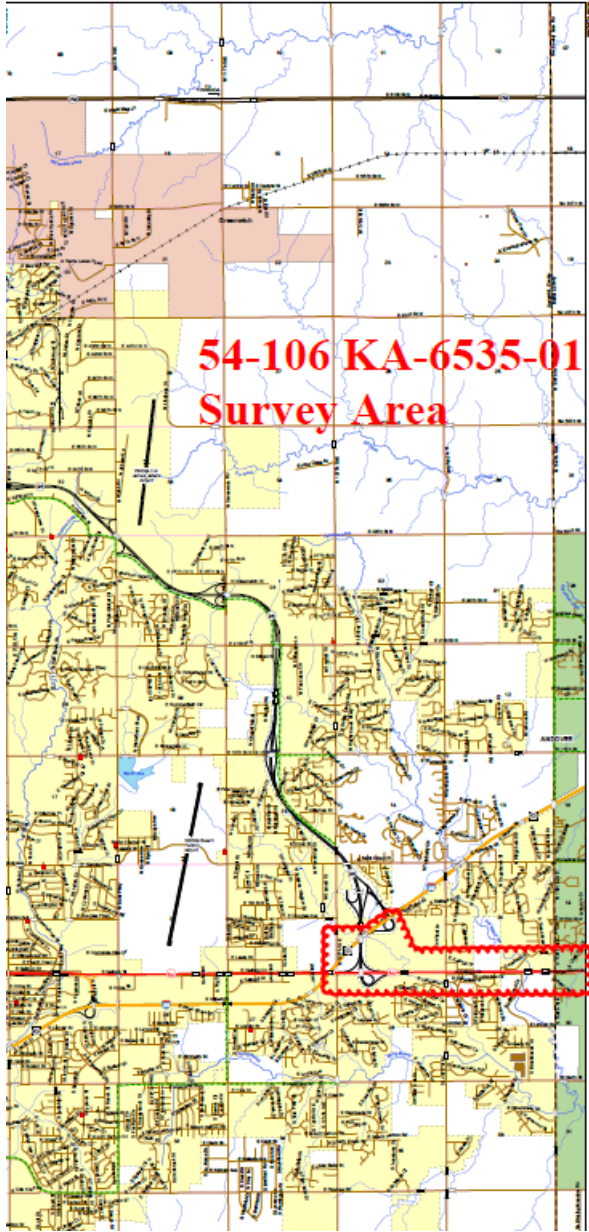

This field survey effort will begin around Monday, Feb. 28, and is estimated to be completed by July 1.

The survey will gather information needed for detailed design of the proposed improvement.

A member of the survey crew first will contact property owners and/or tenants for permission to enter private property if needed. Survey activities will include the use of survey instruments on the ground to determine locations of existing features within the survey corridor.

Michael Lay, P.S., Survey Project Manager, GBA, will be in charge of this survey for the Kansas Department of Transportation.

**The map below shows the project location circled.**
