K-15 bridge replacement in Washington County

The Kansas Department of Transportation will begin replacement of the bridge over Mill Creek in Washington County on Tuesday, May 7, weather permitting. The bridge is located on K-15 just south of Washington.

Traffic will be carried through construction during the entire project. However, during part of the bridge replacement project, a temporary traffic signal will direct one-lane traffic through the work zone. Traffic should expect delays of 15 minutes or less and plan extra time in their travel schedules.

This project is scheduled for completion in May 2020. Bridges Inc. of Newton is the prime contractor for this \$3.5 million project.

KDOT urges all motorists to be alert and obey the warning signs when approaching and driving through a work zone.
