### **Construction Activity: Long-Term Closures**

#### **I-435: Project # 435-46 KA 3993-01**

Work has begun on the westbound lanes of I-435 from Quivira Rd. to Metcalf Ave. During the paving project, lanes will be shifted and traffic in both directions will be reduced to three through lanes. The paving is part of a two-year T-works project to improve I-435 in Johnson County, one of the most heavily traveled sections of roadway in the state. Work is expected to be complete by November 16, 2018

**Detours:** Drivers should expect traffic delays on I-435 during the construction period, especially during rush hours and should allow more travel time to go through the construction area. Drivers who normally use I-435 should consider using College Blvd. or 103<sup>rd</sup> St. for local travel. During the paving project, additional temporary closures may be required to shift lanes.
