

2008 T-LINK and KDOT Local Consultation State Highways Project Discussion Olathe – September 22, 2008

The 2008 Local Consultation meetings are intended to develop and refine the regional and statewide transportation needs and priorities in Kansas. Specific projects will not be selected for funding through the local consultation or the T-LINK task force process.

The following state highway projects outline a few of the needs that KDOT is aware of and should serve as a starting point for discussion. Specifically, this project list includes projects that KDOT's priority formula would suggest are important and previous local consultation efforts. This list is intended merely as a beginning for discussion purposes, and it is expected that many other needs will arise as a part of the Local Consult process.

Candidate Projects for Construction after Fiscal Year 2009

Projects identified through Priority Formula

Projects identified through 2006 local consult meetings

Projects identified as statewide priorities in 2006 local consult meetings
