## NEWS RELEASE

Kansas Department of Transportation News Release

July 7, 2009

09-067-01

**FOR IMMEDIATE RELEASE**

News Contact: Kimberly Qualls, (785) 640-9340 or [kqualls@ksdot.org](mailto:kqualls@ksdot.org)  
Steve Baalman, (785) 296-2291 or [steveb@ksdot.org](mailto:steveb@ksdot.org)

### **Resurfacing Work Scheduled for K-92 in Jefferson & Leavenworth Counties**

Weather permitting, on **Wednesday, July 8**, a resurfacing project will begin on approximately 21.5 miles of K-92 from the K-16/K-92 junction in McLouth (Jefferson County) east to 15th Street in the city of Leavenworth (Leavenworth County). Resurfacing work will take place daily, Monday through Friday, during daylight hours, with some occasional Saturday work.

Flaggers will coordinate with pilot cars to guide traffic through the project. Drivers should expect some minor delays of up to 15 minutes, including possible start and stop traffic, and are encouraged to use alternate routes, if possible. When drivers enter the project work zone on K-92 from adjacent roadways, they must not enter onto K-92 until they are able to follow in behind the pilot car. There will be a 10.5-foot lane width restriction on K-92 through the project work zone.

Workers will begin the recycle process which includes milling away the top two inches of pavement then reapplying two inches of asphalt over the roadway surface. The resurfacing project will smooth the road and fill cracks that can shorten pavement life. Following the completion of the overlay, permanent pavement markings will be placed on the resurfaced roadway.

Bettis Asphalt is the primary contractor on this resurfacing project with a total contract cost of \$1,940,708. The scheduled completion date for the entire project is late October 2009.

The Kansas Department of Transportation urges all motorists to be alert, obey the warning signs, and "Give 'Em a Brake!" when approaching and driving through the project work zone. For more information on this resurfacing project, please contact Kimberly Qualls, Northeast Kansas Public Affairs Manager, at (785) 640-9340, or Steve Baalman, Field Engineering Administrator, at (785) 296-2291.
