Updates from around Kansas & neighboring states

Wichita: As of 7 p.m. Wichita KDOT reports highways north & northeast of Wichita are snowpacked/icy; some icy pellets have peppered the Metro. North wind is wicked. www.kandrive.org

Colorado: As of 5:44 p.m. today, Colorado Department of Transportation crews are on snow shift. Temps are cold and ice may form especially on bridges, overpasses and ramps. "Ice and snow, take it slow."

Iowa: As of 9:24 p.m. today, the Iowa Department of Transportation, Iowa in for snow globe effect: AMES, Iowa - Jan. 6, 2010; 9 p.m. update - Imagine a miniaturized winter scene of t... <http://bit.ly/7GKR8H>

Missouri: As of 10:17 p.m. today, Southwest Missouri Department of Transportation: With the rapidly decreasing temperatures, continuing light snow fall, some sleet, etc., road conditions are slick. ... <http://bit.ly/4Q2L3v>

Current National Weather Service Forecast

Northeast Kansas, including Topeka/Lawrence Metro Area – UPDATED!

Overnight: Widespread blowing snow and a chance of snow. Cloudy, with a low around 3. Wind chill values between -10 and -17. Blustery, with a northwest wind around 25 mph, with gusts as high as 35 mph. Chance of precipitation is 30%.

Thursday: Areas of blowing snow and a chance of flurries. Cloudy and cold, with a high near 6. Wind chill values between -15 and -20. Blustery, with a northwest wind between 20 and 25 mph, with gusts as high as 35 mph. Chance of precipitation is 10%.

Thursday Night: Mostly cloudy, with a low around -7. Wind chill values between -19 and -25. Blustery, with a north wind between 15 and 20 mph, with gusts as high as 30 mph.

National Weather Service Winter Weather Advisory & Wind Chill Watch – UPDATED!

REPUBLIC-WASHINGTON-CLOUD-CLAY-RILEY-POTTAWATOMIE-OTTAWA-DICKINSON-GEARY-MORRIS-WABAUNSEE-SHAWNEE-LYON-OSAGE-FRANKLIN-COFFEY-ANDERSON-INCLUDING THE CITIES OF...CONCORDIA...CLAY CENTER...MANHATTAN...ABILENE...JUNCTION CITY...TOPEKA...EMPORIA...OTTAWA

THE NATIONAL WEATHER SERVICE IN TOPEKA HAS ISSUED A WIND CHILL WATCH WHICH IS IN EFFECT FROM THURSDAY EVENING THROUGH SATURDAY MORNING.

A WINTER WEATHER ADVISORY REMAINS IN EFFECT UNTIL 6 PM CST THURSDAY.

Timing...snow will continue through the evening tonight...tapering to flurries by dawn Thursday. Strong northwest winds will develop this evening...resulting in blowing and drifting snow tonight and Thursday...with wind chills reaching dangerous levels late tonight and continuing through Saturday morning.

Total snow accumulations...accumulations commonly in the 2 to 4 inch range are expected.

Winds...sustained winds of 20 to 30 mph will be common...with gusts as high as 40 mph possible. Strong winds and cold temperatures will produce wind chills of 15 to 30 below zero through Saturday morning.

Impacts...blowing and drifting snow will result in reduced visibilities and some roads drifting shut. The extreme wind chills will be dangerous for anyone facing more than 1 or 2 minutes of exposure to the cold.

Precautionary/preparedness actions...conditions can deteriorate rapidly in winter weather situations...slow down and allow extra time when traveling. Practice your winter safety rules...keep an extra flashlight...food...and water in your car in case of an emergency.

Greater Kansas City Metro Area – UPDATED!

Overnight: Widespread blowing snow and a chance of snow. Cloudy, with a low around 8. Wind chill values between -4 and -11. Blustery, with a west northwest wind between 18 and 20 mph, with gusts as high as 29 mph. Chance of precipitation is 30%.

Thursday: Widespread blowing snow and scattered flurries. Cloudy and cold, with a high near 9. Wind chill values between -9 and -14. Blustery, with a northwest wind between 20 and 22 mph, with gusts as high as 32 mph. Chance of precipitation is 20%.

Thursday Night: Areas of blowing snow. Cloudy, with a low around -5. Wind chill values between -16 and -22. Blustery, with a northwest wind between 14 and 20 mph, with gusts as high as 28 mph.

National Weather Service Winter Storm Warning

MIAMI-LINN KS-LEAVENWORTH-WYANDOTTE-JOHNSON KS-PLATTE-CLAY-RAY-JACKSON-LAFAYETTE-CASS-JOHNSON MO-BATES-HENRY-INCLUDING THE CITIES OF...PAOLA...MOUND CITY...LEAVENWORTH...OVERLAND PARK...OLATHE...PARKVILLE...PLATTE CITY...WESTON...LIBERTY...EXCELSIOR SPRINGS...RICHMOND...KANSAS CITY...INDEPENDENCE...LEXINGTON...CONCORDIA...RAYMORE...HARRISONVILLE...PLEASANT HILL...WARRENSBURG...BUTLER...RICH HILL...CLINTON

A Winter Storm Warning for snow and blowing snow remains in effect until 6 pm CST Thursday.

Short term trends...a band of moderate snowfall will be passing through west central Missouri through 10 pm. Additional snowfall amounts of 1 to 2 inches will be possible. In east central Kansas the snow should be a little lighter...but still an additional inch of snowfall will be possible this evening.

All the snow is expected to come to an end around midnight although areas from Concordia...Warrensburg...south to Clinton may still see some light snow into the early morning hours. Total accumulations are expected to be in the 2 to 5 inch range.

To complicate matters...an arctic cold front will sweep into the region late this evening. Winds will be increasing toward midnight and during the overnight hours should average in the 20 and 25 mph with gusts over 30 mph. Winds are expected to remain strong through the daytime hours of Thursday. These strong winds will create significant blowing and drifting of snow reducing visibilities as low as a half mile at times overnight tonight and Thursday morning.

Dangerously cold wind chills will also overspread the region Thursday as temperatures fall through the single digits. Wind chill values of 15 to 25 below zero will become widespread...creating a potentially life threatening situation for anyone caught outdoors and unprotected for more than a few minutes.

Precautionary/preparedness actions... A winter storm warning for snow and blowing snow means severe winter weather conditions are expected or occurring. Significant amounts of snow and blowing snow are

forecast that will make travel dangerous. Only travel in an emergency. If you must travel...keep an extra flashlight...food...and water in your vehicle in case of an emergency.

Current Road Conditions – UPDATED!

The snow continues to fall throughout all northeast Kansas counties and is expected to taper off around midnight, though flurries with some overnight accumulation will continue through tomorrow morning. Roadways, including mainline lanes, ramp areas, bridges and overpasses, may be slick due to the snowpacked/icy conditions, drifting snow and extremely cold single digit temperatures, so drivers need to use caution and take it slow.

Road conditions now range from partly to completely snowpacked/icy and/or drifting throughout all of northeast Kansas. Some of the interstate highways may have one fairly clear driving lane with spots snowpacked, but the passing lanes are mostly snowpacked. Drifting on the roadways is now occurring in many more northeast Kansas counties and will continue to do so during the overnight hours.

Blowing snow and gusting winds are causing poor visibility on many northeast Kansas highways making driving conditions hazardous. Extremely cold temperatures and wind chill conditions of 15 to 20 degrees below zero will also be hazardous for drivers should they become stalled or stranded on the roadways. KDOT advises all drivers during the overnight hours to: **Stay off the roads, Stay inside, stay SAFE!**

KDOT crews will continue to mainly plow and spot treat only (salt/sand mixture) as needed throughout the overnight hours into early Thursday morning. *See the chart below for current roadway conditions for individual northeast Kansas counties.*

Driver Safety Tips

Please remind DRIVERS as they travel about to:

1. Take it SLOW!
2. Allow plenty of extra drive time.
3. Watch for icy/slick spots on the roadway; don't assume that if the pavement looks clear, that it is.
4. Buckle up every passenger, every time.
5. If they get stranded, to stay IN their vehicle and call *47 on a state highway/interstate route (any highway that begins with I-, K-, and US-), *KTA on the Kansas Turnpike, or #911 at anytime.

For travel throughout the overnight and into the early morning hours tomorrow, drivers should use caution, allow plenty of driving time, buckle up (every passenger, every time) and be sure to turn on their headlights, and turn off their cruise control. Drivers should also provide for a safe distance or cushion between themselves and vehicles ahead of them.

We also want to remind drivers to stay a safe distance back from KDOT snow plows, and if drivers should pass the snow plows, to be extra careful and allow plenty of room as the trucks do travel slower than surrounding traffic.

COUNTY/METRO AREA	CURRENT OVERALL ROAD CONDITIONS	New Update Yes/No
KC Metro Area (Johnson/Leavenworth/Wyandotte Counties)	Mostly Snowpacked/Icy	No
Topeka Metro Area (Shawnee County)	Completely Snowpacked/Icy	YES
Atchison County	Drifting	YES
Brown County	Drifting	YES

Doniphan County	Drifting	YES
Douglas County	Completely Snowpacked/Icy	No
Jackson County	Completely Snowpacked/Icy	No
Jefferson County	Drifting	No
Lyon County	Drifting to Completely Snowpacked/Icy	No
Marshall County	Completely Snowpacked/Icy	No
Nemaha County	Drifting	YES
Osage County	Completely Snowpacked/Icy	No
Pottawatomie County	Partly to Completely Snowpacked/Icy	YES
Riley County	Partly to Completely Snowpacked/Icy	YES
Wabaunsee County	Completely Snowpacked/Icy	No

Current Road Closures for Northeast Kansas

There are no road closures to report for Northeast Kansas.

Updated Road Conditions (via phone or online 24/7)

Updated Kansas road conditions are at your fingertips. **KanDrive** is the new online travel info portal, www.KanDrive.org, that displays information from KDOT's traveler information technology, including highway cameras, dynamic message signs, traffic management centers and 511 phone, online and mobile (<http://511mm.ksdot.org>). Snapshots from more than 30 closed-circuit cameras along I-70 between Topeka and Colorado and along other highways in the state, as well as camera views from the KC Scout system are available through the new online site, so users can see the roadway conditions.

Travelers can also obtain updated road conditions simply by calling 511 from any phone (landline or cellular), or by clicking on the following link: <http://511.ksdot.org>, drivers can obtain updated all of Kansas road conditions at **anytime, day or night.**

Additional weather-related information can be found online at <http://www.ksdot.org/offTransInfo/511Info/511traffictravel.asp>. This KDOT web site link includes informational brochures on 511 Winter Storm Survival, Managing Snow and Ice on Kansas Highways, and Safe Winter Driving Tips. Drivers...“If the weather is bad, remember with ICE AND SNOW, Take it Slow, or just don't go.”
