[HTTP://WWW.KSDOT.ORG](http://www.ksdot.org) – your first stop for road and weather conditions, transportation news, etc. For safety information click on **Safety Information** under *General Categories* in left column for the KDOT Traffic Safety home page (see above). Available on this site is an impressive variety of data, links, and other information. Among the major areas covered are the Kansas Traffic Safety Resource Office (KTSRO), Kansas law enforcement topics, railroad safety, as well as local weather forecasts, among other topics. Take the time to acquaint yourself with this site and use it regularly to keep updated on transportation safety issues and activities. Please send me your suggestions for making it even more useful to you.
