Introduction

This Airport Directory revision has been compiled from numerous sources including pilots, airport managers, airport inspections, FAA publications, aerial photographs and other information. However, as a result of constantly changing airport conditions and the services available thereon, *the Kansas Department of Transportation assumes no responsibility for the action taken by any pilot on the basis of the information contained herein. This Directory should NOT be used as a sole source of obtaining Kansas airport information.*

Pilots are reminded that it is their responsibility to check FAA Notices to Airmen (NOTAMS) and the Airport/Facility Directory (A/FD), as well as to contact the local FAA Flight Service Station to determine current airport status, services available and weather forecasts for your route of flight.
