

## NEWS RELEASE

Kansas Department of Transportation News Release

August 21, 2008

**REVISED** 08-326

### FOR IMMEDIATE RELEASE

News Contact: Kimberly Qualls, (785) 640-9340 or [kqualls@ksdot.org](mailto:kqualls@ksdot.org)  
Ruben Noguera, (913) 764-4525 or [ruben@ksdot.org](mailto:ruben@ksdot.org)

### **I-35 & I-435 Interchange Closures Scheduled for this Weekend in Johnson County**

Weather permitting, on **Friday, August 22 at 7:00 p.m., lane closures on I-35** will begin for a repair project at the I-35 and I-435 interchange in Johnson County. **Northbound I-35 will be reduced to one lane from 119th Street to Pflumm Road and southbound I-35 will be reduced to one lane from 95th Street to just north of 119th Street.** All **lane closures** will begin at **7:00 p.m. on Friday, August 22, and will reopen to all traffic at 5:00 a.m. on Monday, August 25.**

Advance message boards will alert drivers to the lane closures. During the lane closures, drivers should expect major delays and are advised to use alternate routes, if possible. Updated daily lane/ramp closure information for this repair project can be viewed online at: [www.ksdot.org/kcmetro/laneclose.asp](http://www.ksdot.org/kcmetro/laneclose.asp).

These closures are part of the resurfacing and repair projects taking place on I-35 at I-435 and the fly-over bridges/ramps at the I-35 and I-435 interchange that began in mid-July. Work for both projects is being coordinated during the same timeframe to help minimize overall traffic impacts.

Clarkson Construction Company, Inc. is the primary contractor with a total contract cost of \$525,000. The scheduled completion date for the entire project is late summer 2008, weather permitting.

The Kansas Department of Transportation urges all motorists to be alert, obey the warning signs, and “Give ‘Em a Brake!” when approaching and driving through the project work zone. For more information on this repair project, please contact Kimberly Qualls, Northeast Kansas Public Affairs Manager at (785) 640-9340, or Ruben Noguera, Field Engineering Administrator, at (913) 764-4525.
