Rumble Strip Installation Project Scheduled for K-7/US-24/I-435 in Wyandotte County

Weather permitting, beginning on **Thursday, April 23**, work will begin for a shoulder rumble strip installation project on K-7, US-24 and I-435 in Wyandotte County. Crews will grind rumble strips into the pavement along the shoulders of these highways. Work will take place during daylight hours only. The schedule for the installation project is as follows:

Thursday, April 23 – Northbound and southbound K-7 from Parallel Parkway to 130th Street

Friday, April 24 – Eastbound and westbound US-24 from 142nd Street to K-7

Monday, April 27 – Northbound and southbound I-435 from Leavenworth Road to Kansas Avenue

Traffic will be directed through the work zone via signage. Crews will use a mobile lane closure by first dropping the lane adjacent to the shoulder and then work their way from the left shoulder to the right shoulder along each direction of the highways listed above. All ramps will remain open throughout the project. Updated daily lane closure information for this pavement repair project can be viewed online at: www.ksdot.org/kcmetro/laneclose.asp. Drivers should expect minor delays and are advised to use alternate routes, if possible.

The Kansas Department of Transportation urges all motorists to be alert, obey the warning signs, and “Give ‘Em a Brake!” when approaching and driving through the project work zone. For more information on this rumble strip installation project, please contact Kimberly Qualls, Northeast Kansas Public Affairs Manager, at (785) 640-9340, or Jim Wetterberg, Bonner Springs Construction Engineer at (913) 721-2754.
