Asphalt Overlay on K-14/96 Highway in Rice and Reno County

Starting around Wednesday, July 23, the Kansas Department of Transportation (KDOT) will begin a road surface milling and asphalt overlay project on K-14/96 Highway in Rice and Reno Counties, from 4.5 miles south of Sterling to the south city limits of Lyons, not including the city of Sterling.

Traffic through this work zone will be controlled by flagmen and pilot car, so drivers can expect delays of 15 minutes or less. There will be an 11 foot width restriction in the work zone, so vehicles with widths wider than 11 feet will need to use an alternate route. The work area will move daily and work will be underway during daylight hours only. This project is scheduled to be completed by September, depending on delays caused by adverse weather conditions.

APAC Kansas Inc. Shears Division, from Hutchinson, is the prime contractor for this $1,507,542.14 project, which is funded by T-WORKS, the transportation program passed by the Kansas Legislature in May 2010. For more information about T-WORKS projects and funding visit the website, www.ksdot.org/tworks. Highway construction project locations and road condition information can be viewed at the http://511.ksdot.org website, or can also be accessed by telephone by dialing 511.
KDOT urges all motorists to be alert, obey the warning signs, and “Give ‘Em a Brake!” when approaching and driving through a highway work zone. Persons with questions about this road work or other KDOT projects can call South Central Kansas Public Affairs Manager, Martin Miller, at 620-663-3361 or 1-877-550-5368 (Toll free). ###

This information can be made available in alternative accessible formats upon request. For information about obtaining an alternative format, contact KDOT Public Affairs, 700 SW Harrison St., 2nd Fl West, Topeka, KS 66603-3754 or phone 785-296-3585 (Voice)/Hearing Impaired – 711.
