Survey for U.S. 400 passing lanes starts next week

The Kansas Department of Transportation (KDOT) plans to begin a field survey for a project to add passing lanes on U.S. 400 in Greenwood County the week of June 29.

The location being surveyed starts 11.2 miles east of the Butler-Greenwood county line and continues east for 3.1 miles. The survey will take place on the existing highway alignment.

KDOT expects the survey work to last eight weeks. Activities include the use of survey instruments on the ground to determine locations of existing features within the corridor.

A member of the survey crew will contact property owners or tenants for permission to enter private property.

Brent Thompson of RIC will manage this survey for KDOT.

Persons with questions may contact KDOT Public Affairs Manager Priscilla Petersen, (620) 902-6433.
