KDOT to begin survey at U.S. 59 Neosho River Bridge

The Kansas Department of Transportation (KDOT) plans to begin a field survey the week of August 17 at the Neosho River Bridge on U.S. 59. The bridge is 2.4 miles north of the U.S. 59/K-47 junction.

The survey covers approximately two miles on the existing highway alignment. Survey crew members will gather information for the detailed design of a proposed project to replace the bridge.

KDOT expects the survey work to be completed by December. Activities include the use of survey instruments on the ground to determine locations of existing features within the corridor.

A member of the survey crew will contact property owners or tenants for permission to enter private property. John Lilak of Bartlett & West will manage this survey for KDOT.

Persons with questions may contact KDOT Public Affairs Manager Priscilla Petersen, (620) 902-6433.
