Pavement marking project resumes on U.S.169 in Miami County

The Kansas Department of Transportation (KDOT) has resumed a pavement marking project on 11 miles of the U.S.169 four-lane section in Miami County. The project, originally set to begin last fall, starts at Crescent Hill Road at Osawatomie and continues north to end at the south side of Baptiste Drive at Paola.

The contractor will remove all deteriorated existing pavement markings and replace them with multi-component pavement markings. Traffic will be reduced to one lane at the work zone. The project should be finished by the end of May, weather permitting.

KDOT awarded the construction contract of $726,667 to Action Safety Supply Co., Oklahoma City, Okla. Donna Schmit, construction engineer at the Garnett KDOT office, reminds drivers to reduce speed on the project, use extra caution and “Give ‘Em a Brake!”

This preservation project is funded under the T-WORKS transportation program. Those with questions may contact Schmit at (785) 448-5446, or KDOT Southeast District Public Affairs Manager Priscilla Petersen, 1-877-550-5368. For more information concerning T-WORKS projects visit the website, www.ksdot.org/tworks.
