Eisenhower Road bridge at I-35 to close for repairs

On Monday, March 3, the Kansas Department of Transportation (KDOT) expects to begin a project to repair and then place a silica fume overlay on the Eisenhower Road bridge over I-35 (Exit 182) at Ottawa.

The contractor will close Eisenhower Road over I-35 to through traffic on Monday, March 3. Eisenhower Road traffic will be detoured on local roads. North- and southbound I-35 traffic will be advised to use Exit 183 for the duration of the project. The ramps at the Eisenhower interchange will remain open.

KDOT awarded the construction contract of $479,533 to King Construction Company, Inc., of Hesston. Weather permitting, the project is expected to be complete and the bridge reopened in early August 2014.

This preservation project is funded under the T-WORKS transportation program. Those with questions may contact KDOT Garnett Area Engineer Hugh Bogle at (785) 448-5446, or KDOT Southeast District Public Affairs Manager Priscilla Petersen, 1-877-550-5368. For more information concerning T-WORKS projects visit the website, www.ksdot.org/tworks.
