K-99 resurfacing to begin March 24

On Monday, March 24, the Kansas Department of Transportation (KDOT) expects to begin a project to mill 1 inch from and then place a 1½-inch asphalt overlay on 14 miles of K-99 in Greenwood County. The resurfacing project runs from the Elk-Greenwood county line north to U.S. 54. No work will take place on U.S. 400.

Flaggers and a pilot car operation will guide one-lane traffic through the work zone during daylight hours. Traffic can expect delays of 15 minutes or less. The contractor will begin work on the north end of the project and continue south. The road work should be completed by mid-May, weather permitting.

KDOT awarded the construction contract of $1.5 million to Venture Corporation of Great Bend. Donna Schmit, construction engineer with the KDOT Garnett Area Office, reminds drivers to obey the signs and flaggers, slow down and “Give ‘Em a Brake!” at the work zone. The project is funded under the T-WORKS transportation program. Those with questions may contact Schmit at (785) 448-5446, or KDOT Southeast District Public Affairs Manager Priscilla Petersen, 1-877-550-5368. For more information concerning T-WORKS projects visit the website, www.ksdot.org/tworks.
