KDOT to repair Bull Creek Bridge on K-68

On Monday, April 7, the Kansas Department of Transportation (KDOT) expects to begin a project to make repairs and replace the expansion joints on the K-68 Bull Creek Bridge in Miami County. The bridge is approximately two miles west of the K-68/U.S.169 junction.

One-lane traffic will be carried through the work zone using temporary traffic signals. Expect brief delays at the bridge site. PCiRoads, LLC, of St. Michael, Minn., the project contractor, plans to work at the bridge weekdays and Saturdays. The project will be finished by the end of June, weather permitting.

This preservation project has a construction contract of $361,698 and is funded under the T-WORKS transportation program. Those with questions may contact KDOT Garnett Area Construction Engineer Donna Schmit at (785) 448-5446 or Priscilla Petersen at 1-877-550-5368. For more information concerning T-WORKS projects visit the website, www.ksdot.org/tworks.
