KDOT repairing concrete on U.S. 400 in Montgomery County

Chanute – Monday, July 10, the Kansas Department of Transportation (KDOT) began a project to replace mainline concrete panels on U.S. 400 at various locations between the Wilson-Montgomery county line and the U.S. 400/U.S. 169 junction.

Temporary signals are controlling one-lane traffic at the work zone on a 24-hour basis, seven days a week. Expect delays of 10 minutes or less. The concrete repairs should be finished by late August, weather permitting.

KDOT reminds drivers to obey the traffic signs and signals. For more information contact Marcus Leck, maintenance superintendent at the Independence office, (620) 331-3760, or Priscilla Petersen at the Chanute office, (620) 902-6433.
