Survey Scheduled for K-4 in Saline County

Surveyors will soon be conducting work on K-4 in order to determine the existing Right of Way and for the recovery of the existing alignment and adjacent boundary markers in Saline County. The survey will take place beginning at the K-4/K-104 junction east to the Saline/Dickinson County line, a distance of 14 miles. The survey is scheduled to begin Monday, April 14th and will be completed by the end of May weather permitting.

A member of the survey crew will first contact property owners and/or tenants for permission prior to entering private property. Survey activities will include the use of survey instruments on the ground to determine locations of existing features within the survey corridor.

Michael Selley, L.S., Field Survey Project Manager, will be in charge of this survey for the KDOT.

This project is funded through T-WORKS. For more information concerning the T-works program and specific projects visit the T-works web site at www.ksdot.org/tworks.
