I-70 road construction in Geary County

Due to ongoing construction of the I-70/US-77 interchange, vehicles over 85 feet long are not advised to take the eastbound and westbound I-70 on- and off-ramps. Vehicles 85’ and longer will need to use an alternate route.

Plans call for the project to be completed and traffic to be returned to normal by Nov. 16th weather permitting.
