Survey to begin on US-54 Highway in Pratt

Starting around Monday, July 29, and continuing for four (4) weeks, the Kansas Department of Transportation (KDOT) will have a field survey team surveying the US-54/400 Highway intersection with US-281 Highway in the City of Pratt. The survey area will include the section of US-54 from 800 feet east and west of this intersection and US-281 from 400 feet north and south of this intersection. The purpose of the survey is to gather information necessary to create detailed designs for future improvements.

Martin G. Long, L.S., with the consultant firm of Coder Engineering, will be in charge of this survey for KDOT. A member of the survey crew will contact landowners and/or tenants for permission to enter private property. Survey activities will include the use of survey equipment on the ground to determine locations on existing features within the survey corridor.

Persons with questions about the survey can contact Martin Miller, KDOT South Central Public Affairs Manager, at (620) 663-3361 or toll free at 1-877-550-5368.
This information can be made available in alternative accessible formats upon request. For information about obtaining an alternative format, contact the Bureau of Transportation Information, 700 SW Harrison St., 2nd Fl West, Topeka, KS 66603-3754 or phone 785-296-3585 (Voice)/Hearing Impaired – 711.
