

TRAFFIC ALERT – UPDATE!

FOR IMMEDIATE RELEASE

March 22, 2013

News Contact: Kimberly Qualls, (785) 640-9340 or kqualls@ksdot.org

K-10/23rd Street Bridge

Due to the forecasted winter weather for this weekend and the cold temperatures for early next week, these lane closures have been **SUSPENDED until further notice! We will provide advance separate notification when the work is rescheduled.**

EXPECT DELAYS! Eastbound and westbound K-10/23rd Street from Haskell Avenue to Barker Avenue will be reduced to **ONE LANE** each direction for a 2-inch mill and asphalt inlay on either side of the new bridge in east Lawrence **beginning on Monday-Thursday, March 25-28, between 8:00 a.m. and 5:00 p.m. each day**, weather permitting. Crews will begin with milling work the first day followed by three days of inlay work.

Traffic will be directed through the work zone via cones and signage. Advance message boards will alert drivers to the lane closures. Drivers should expect major delays during peak travel times.

Updated traffic information for the K-10/23rd Street bridge replacement project can be viewed online: www.ksdot.org/topekametro/laneclose.asp.

The Kansas Department of Transportation urges all motorists to be alert, obey the warning signs, and “Give ‘Em a Brake!” when approaching and driving through the project work zone.

Project work on the frontage roads and other incidental items is scheduled to be completed mid-summer 2013, weather permitting. (KDOT T-WORKS Project #10-23 KA 0685-01)
