Note: If this bid item is not included in the Contract Documents, this work is subsidiary to other items in the contract.

849.2 MATERIALS
Provide materials that comply with the applicable requirements.

| Geomembrane                          | .................. | DIVISION 1700 |
| Cushioning material FA-A             | .................. | DIVISION 1100 |

849.3 CONSTRUCTION REQUIREMENTS
Do not remove the geomembrane from its package and expose it to sunlight or the elements more than 10 days before it is placed and covered.

Place the geomembrane as shown in the Contract Documents, with the longitudinal axis of the roll perpendicular to the centerline of the roadway. Overlap the geomembrane with a minimum of 24 inches at the joints, with the uphill layer placed on top of the downhill layer of geomembrane.

If the geomembrane is damaged by tears, punctures, or contamination from hydrocarbon spill, do not patch the damaged areas, replace the entire section of the geomembrane.

Place the cushioning material (sand) in a manner that does not puncture or tear the geomembrane.

849.4 MEASUREMENT AND PAYMENT
When shown as a bid item in the contract, the Engineer will measure the geomembrane by the square yard. If the geomembrane work is shown in the Contract Documents, but the bid item for this work is not included in the Contract Documents, the Engineer will not measure the geomembrane for separate payment. Quantities shown in the Contract Documents are based on the width of select granular backfill plus 6 feet for wrapping.

Payment for "Geomembrane" at the contract unit price is full compensation for the specified work.
