

**KANSAS DEPARTMENT OF TRANSPORTATION
SPECIAL PROVISION TO THE
STANDARD SPECIFICATIONS, 2015 EDITION**

Add a new SECTION to DIVISION 800:

COURTESY TOWING

1.0 DESCRIPTION

Provide towing of disabled vehicles within the project limits.

BID ITEM

Towing (Courtesy) (Set Price)

UNIT

Each

2.0 MATERIALS – None specified.

3.0 CONSTRUCTION REQUIREMENTS

Secure the services of at least 2 towing companies in the proximity of the project limits. The towing companies must provide 24-hour service.

Exclusive of traffic accidents (which are the responsibility of law enforcement agencies), the Contractor, the Kansas Highway Patrol (KHP), the local law enforcement agencies (police and sheriff), and Kansas Department of Transportation (KDOT) personnel are authorized to call the towing companies to remove disabled vehicles from the project limits. In the event of a traffic accident, notify the KHP.

Provide all parties authorized to summons the towing companies with the names, addresses and telephone numbers of the towing companies.

If called, the towing company will respond promptly to tow the disabled vehicle from the point it is parked to the nearest exit. From the exit, the towing company will tow the disabled vehicle to the service station nearest the exit or to the towing company lot if no suitable location is available near the project exit. If the owner of the disabled vehicle wants the vehicle towed to a location other than specified, the owner of the disabled vehicle must pay for the tow.

Produce a "Courtesy Tow Form" (refer to the sample form attached to this specification) to be issued by the tow company to the owner of the disabled vehicle. Provide the Project Engineer with a copy of the "Courtesy Tow Form" (completed by the tow company) for each occurrence.

4.0 MEASUREMENT AND PAYMENT

The Engineer will measure each completed and accepted courtesy tow.

Payment for "Towing (Courtesy)" at the contract set price is full compensation for the specified work.
