DATA FAQ

1) What do you mean by data?
   a. If the radio and site equipment are configured, there is a small pipe that can be used for sending small non voice information over.

2) Is the KSICS system data capable?
   a. KSICS is a fully IV&D (integrated voice and data) P25 system.

3) What is the most common information to send over data instead of voice?
   a. Location is the most popular data to send

4) Is data capability activated at all the towers on KSICS?
   a. No. The state-owned towers currently have data deactivated. Several local entities have added their own towers and have data activated on them.

5) What takes priority (Data or Voice)?
   a. Voice takes priority, the data stream is paused while the voice transmission comes in and goes out.

6) I have other questions, who do I ask.?
   a. Please email us ksics_encryption@ks.gov
