Why is the Kansas Department of Transportation involved with outdoor advertising?

As part of the Highway Beautification Act (also known as the Lady Bird Johnson Act), federal law requires all states to provide continuing, effective control of outdoor advertising (Title 23, U.S. Code, Section 131). Failure to comply may result in a 10 percent reduction in Kansas’s Federal Highway funds.

What is Outdoor Advertising?

Outdoor Advertising is signs, displays, and devices in areas visible from and adjacent to the federal-aid primary system in existence on June 1, 1991 and any highway which is not on such system but which is on the national highway system. These signs are controlled in order to protect the public investment on such highways, and to promote the safety and recreation value of public travel, and to preserve natural beauty.
What type of signs does this apply to in Kansas?

Kansas licenses three types of signs, legal conforming, direction, and official. Each has its own specific rules that apply.

◊ Legal conforming signs are signs that are in commercial or industrial zoned areas. These signs require an application and fee, and an additional biennial licensing fee.

◊ Directional and official signs require a sign application and fee but are exempt from licensing fee. Owned by official agencies.

How do we apply for a Vegetation Permit?
