Appendix E: Conceptual K-10 Mainline Layout
The "K-10 Extension" shown on this figure is one of two possible future freeway-to-freeway connections at the existing intersection of K-10 and 17th/Barst Road. The other possible future connection is with I-70 and US 64/40 on the north-south side of Lawrence. Either connection at this location will allow K-10 to continue as a freeway section without traveling through Lawrence. This study did not include any decisions about which connection will be pursued, and the future work will be addressed by KDOT, the City of Lawrence, or Douglas County. Further study will be necessary to define the type, location, and right-of-way needs for this extended freeway interchange.
