A basic diagram is required for all state reportable crashes showing movements, direction, and positions of all traffic units in relationship to the trafficway. Identify (label) the street(s) and traffic unit(s) along with the area of impact (AOI) where possible. Refer to vehicles and pedestrians by unique numbers assigned in this report.

Note: The above line scale is 1"=20'; 5 feet squares. If another scale is used, please specify.

Indicate North Direction.

Draw scene as observed or recreate per statements and evidence available.
