Eastbound K-10 Over Kill Creek Bridge Repair Project to Begin in Johnson County

On Monday, October 7, a repair project will begin on the eastbound K-10 Bridge over Kill Creek in De Soto (Johnson County). Project work includes expansion joint repairs on the eastbound K-10 over Kill Creek Bridge. Work will take place daily, Monday through Friday during daylight hours.

Beginning at 9:00 a.m. on Monday, October 7, eastbound K-10 will be reduced to one lane from Lexington Road over the Kill Creek Bridge, 24/7 round the clock, throughout the project duration. Traffic will be directed through the project via concrete safety barrier and signage. There will be a 12-foot lane width restriction and a 60 mph speed limit will be posted through the project work zone.

Advance message boards will alert traffic to the lane and ramp closures. Updated traffic information for this repair project can be viewed online: www.ksdot.org/kcmetro/laneclose.asp. Drivers should expect some delays, especially during peak morning/evening rush hours, and are encouraged to use alternate routes, if possible.

The Kansas Department of Transportation urges all motorists to be alert, obey the warning signs, and “Give ’Em a Brake!” when approaching and driving through the project work zone.
PCI Roads Inc. (St. Paul, MN) is the primary contractor on this bridge repair project with a total contract cost of $119,572. **The scheduled completion date for the project is late October 2013, weather permitting.**

This project is funded by T-WORKS, the transportation program passed by the Kansas Legislature in May 2010. Find out more about this and other T-WORKS projects at: [http://kdotapp.ksdot.org/TWorks/](http://kdotapp.ksdot.org/TWorks/).

For more information on this bridge repair project, please contact Kimberly Qualls, Northeast Kansas Public Affairs Manager, at (785) 640-9340, or Howard Lubliner, Field Engineering Administrator, at (913) 764-4525. (*KDOT Project #10-46 KA 3354-01*)
