I-435 Over K-10 Bridge Repair Project to Begin in Johnson County

On Monday, April 29 at 9:00 a.m., a repair project will begin on the I-435 bridges spanning K-10 in Johnson County. Project work includes patching and a silica fume overlay on the bridge decks and repair work to the bridge abutments and replacement of the bridge approach pavement. Work will take place during daylight hours, Monday through Friday, with some occasional Saturday work.

Beginning at 9:00 a.m. on Monday, April 29, eastbound and westbound I-435 over the K-10 Bridges will be reduced to two through lanes and will remain in this configuration throughout the project duration. Traffic will be directed through the project work zone via signage and cones. There will be a posted speed limit of 55 mph and a 12-foot lane width restriction through the project work zone during the duration of the project.

Advance message boards will alert drivers to the lane closures. Drivers should expect major delays during the peak hours and are advised to use alternate routes, if possible. Updated daily traffic information for this project can be viewed online at: www.ksdot.org/kcmetro/laneclose.asp.

The Kansas Department of Transportation urges all motorists to be alert, obey the warning signs, and “Give ‘Em a Brake!” when approaching and driving through the project work zone.
Comanche Construction Inc. (Olathe, KS) is the primary contractor on this $1.189 million bridge repair project. The bridge repair project is scheduled to be completed in mid-September 2013, weather permitting.

This project is funded by T-WORKS, the transportation program passed by the Kansas Legislature in May 2010. Find out more about this and other T-WORKS projects at: http://kdotapp.ksdot.org/TWorks/.

For more information on this bridge repair project, please contact Kimberly Qualls, Northeast Kansas Public Affairs Manager, at (785) 640-9340, or Howard Lubliner, Field Engineering Administrator, at (913) 764-4525. (KDOT Project #435 46 KA 2785-01)
