I-435 Pavement Marking Project to Begin in Johnson County

On Monday, July 29, a pavement marking project will begin on eastbound and
westbound I-435 from the Antioch Road interchange to the Kansas/Missouri state line. This
project includes replacement of all permanent pavement markings, including all adjacent
interchanges, between Antioch Road and Kansas/Missouri state line. The new pavement
markings will include a white line immediately followed by a trailing black line to allow for
increased visibility. Crews will complete work during daytime and overnight hours, Monday
through Sunday.

Beginning on Monday, July 29, daily lane and ramp closures will occur on eastbound
and westbound I-435 throughout the project work zone. Advance message boards will alert
drivers to the lane/ramp closures. Drivers should expect minor delays. Reduced speed limits
will be in place throughout the project work zone. Updated daily traffic information for this
pavement marking project can be viewed online at: www.ksdot.org/kcmetro/laneclose.asp.

RoadSafe Traffic Systems (El Dorado, KS) is the primary contractor on this $414,047
pavement marking project. The entire project is scheduled to be completed by mid-
September 2013, weather permitting.

This project is funded by T-WORKS, the transportation program passed by the Kansas
Legislature in May 2010. Find out more about this and other T-WORKS projects at:
http://kdotapp.ksdot.org/TWorks/.
For more information on this pavement marking project, please contact Kimberly Qualls, Northeast Kansas Public Affairs Manager, at (785) 640-9340, or Howard Lubliner, Acting Olathe Metro Engineer, at (913) 764-4525. (KDOT Project #435-46 KA 2406-01)
