I-70 Pavement Repair Project to Begin in Wyandotte County

On **Tuesday evening, May 27**, a pavement repair project will begin for eastbound and westbound I-70 from 110th Street to I-435 in Wyandotte County. This also includes work on the 110th Street interchange ramps. Project work includes partial depth patching, a 3-inch structural overlay on eastbound I-70 only followed by a novachip overlay and all new pavement markings on both eastbound and westbound I-70. Work will take place daily overnight between 7:00 p.m. and 6:00 a.m., Monday through Friday.

Beginning at **7:30 p.m. on Tuesday evening, May 27**, eastbound I-70 west of I-435 to 110th Street will be reduced to one 12-foot lane through the project work zone for pavement repair work. There will be a posted speed limit of 60 mph through the project work zone during working hours only. Traffic will be directed through the project work zone via cones and signage during working hours.

Advance message boards will alert traffic to the lane closures. Drivers should expect minor delays during the overnight work hours. Updated traffic information for this project and the entire Kansas City Metro area can be viewed online at:

www.ksdot.org/kcmetro/laneclose.asp.

Superior Bowen (Kansas City, MO) is the primary contractor on this pavement repair project with a total contract cost of \$1.478 million. **The scheduled completion date for the project is mid-July 2014, weather permitting.**

This project is funded by T-WORKS, the transportation program passed by the Kansas Legislature in May 2010. Find out more about this and other T-WORKS projects at: <http://kdotapp.ksdot.org/TWorks/>.

For more information on this pavement repair project, please contact Kimberly Qualls, Northeast Kansas Public Affairs Manager, at (785) 640-9340, or Kevin Kellerman, Construction Engineer, Bonner Springs at (913) 721-2754. (KDOT Project #70-105 KA-3624-01)
