FOR IMMEDIATE RELEASE

For Monday, September 13-Summer 2011 in Johnson County

K-7 & 55th Street/Johnson Drive Project Update

Beginning on Monday September 13, northbound and southbound K-7 will be reduced to one lane each direction from just north of 55th Street/Johnson Drive to just south of 47th Street for construction work on the K-7 and 55th Street/Johnson Drive interchange project. Both northbound and southbound K-7 will be placed directly next to each other on the existing southbound K-7 lanes.

The traffic shift is needed to allow for construction work on the new K-7 interchange alignment to tie it into the existing K-7 alignment.

Drivers should expect little delays and will be directed through this project work zone via tubular channel markers. Updated lane closure information for the project can be viewed online at: www.ksdot.org/kcmetro/laneclose.asp.

This project closure will be in place through summer 2011, weather permitting.
