KDOT to Host Public Open House for Johnson County Gateway: I-435/I-35/K-10 Interchange Study

The Kansas Department of Transportation (KDOT) is hosting the second public open house for the Johnson County Gateway: I-435/I-35/K-10 Interchange study on Thursday, November 18. The public is invited to attend the open house style meeting anytime between 5:00 p.m. and 7:00 p.m. at the Lenexa Conference Center located at 11184 Lackman Road, Lenexa, Kansas 66219.

At the open house participants can learn about the recommended improvement concept for the interchange area and see the overall phasing plan for construction. KDOT staff and project team members will be available to answer questions.

The Johnson County Gateway: I-435/I-35/K-10 Interchange study developed a design concept to improve the safety, mobility and efficiency of the interchange area. The I-435/I-35/K-10 interchange area is one of the most congested interchanges in the state. The economic vitality of the region relies on the continuity and efficiency of the transportation system. That is why KDOT is working closely with local partners to study the interchange and develop solutions for the area. Study partners include the Mid-America Regional Council, Johnson County, Cities of Lenexa, Olathe and Overland Park, and the Federal Highway Administration.

For additional information on the study, please visit the project website: www.Jocogateway.com or e-mail the project team at jocogateway@hntb.com. If you have questions or need special assistance at the open house, please contact Cara Skillman at (816) 527-2593 by Monday, November 15.
