New Traffic Update for US-69 Reconstruction Project in Johnson County

Weather permitting, on Tuesday, November 30, the 103rd Street to southbound US-69 entrance ramp is scheduled to reopen to all traffic and southbound US-69 will return to its normal configuration for the winter season.

Advance message boards will alert drivers to the traffic changes. Updated daily lane and ramp closure information for this reconstruction project can be viewed online at: www.ksdot.org/kcmetro/laneClose.asp.

US-69 project improvements include the rebuilding of Lenexa Drive from 84th Terrace to Farley, and the widening of northbound and southbound US-69 from two lanes to three lanes in each direction, from north of 103rd Street to I-35, as well as improvements to the US-69/95th Street interchange. New designated exit lanes for 75th Street will move traffic off of I-35 sooner and will utilize the existing tunnel that was constructed as part of the 87th Street/I-35 interchange project in Lenexa.

Major project updates to-date include the completion of the rebuilding of Lenexa Drive from 84th Terrace to Farley; new pavement for all northbound US-69 lanes from I-435 to I-35; new pavement for exit lanes at 75th Street that utilize the existing “tunnel to nowhere”; and completed improvements at the US-69/95th Street interchange.

Clarkson Construction Company is the primary contractor on this $82.3 million reconstruction project. The US-69 reconstruction project is scheduled to be completed in the fall 2011.
The US-69 reconstruction project is a cooperative effort, funded in part by the Kansas Department of Transportation, using American Recovery and Reinvestment Act (ARRA) of 2009 funds, and the City of Overland Park.

The Kansas Department of Transportation urges all motorists to be alert, obey the warning signs, and “Give ‘Em a Brake!” when approaching and driving through the project work zone. For more information on this pavement repair project, please contact Kimberly Qualls, Northeast Kansas Public Affairs Manager, at (785) 640-9340, or Brian Bosak, Olathe Construction Engineer, at (913) 764-4525.
