Southbound I-35 Over Pflumm Road Bridge Project to Begin in Johnson County

On Friday, September 9, a resurfacing project will begin on the southbound I-35 over Pflumm Road Bridge in Lenexa (Johnson County). Crews will first complete pavement repairs to the bridge deck, then mill off 2.25 inches of existing pavement, followed by a 2.25-inch silica fume overlay application.

Beginning at 7:30 p.m. on Friday, September 9, southbound I-35 over the Pflumm Road Bridge will be reduced to one open lane for repair work. All related work will take place over three consecutive weekends beginning at 7:30 p.m. on Friday evening and reopening to all traffic at 5:30 a.m. on Monday morning. A 55 mph speed limit will be posted throughout the project work zone during working hours. There will be an 11-foot lane width restriction (as well as minimal shoulders available) throughout the project during working hours.

Advance message boards will alert drivers to the lane closures. Drivers should expect delays and are encouraged to use alternate routes, if possible. Updated traffic impacts for this resurfacing project can be viewed at: www.ksdot.org/kcmetro/laneclose.asp.

Comanche Construction is the primary contractor on this $282,623 resurfacing project. The entire resurfacing project is scheduled to be completed by late September 2011, weather permitting.
This project is funded by T-WORKS, the transportation program passed by the Kansas Legislature in May 2010. Find out more about this and other T-WORKS projects at:
http://kdotapp.ksdot.org/TWorks/.

The Kansas Department of Transportation urges all motorists to be alert, obey the warning signs, and “Give ‘Em a Brake!” when approaching and driving through the project work zone. For more information on this resurfacing project, please contact Kimberly Qualls, Northeast Kansas Public Affairs Manager, at (785) 640-9340, or Ruben Noguera, Field Engineering Administrator, at (913) 764-4525.
