Tower Lighting Replacement Project to Begin in Johnson County

On Monday, June 3, a tower lighting replacement project will begin at the I-35 and 75th Street interchange in Johnson County. Project work includes the replacement of the existing light pole towers located at the interchange. Work will take place primarily during daylight hours, Monday through Friday.

Majority of the project work will take place beyond the shoulders on the highway right of way in the interchange area. There may be some occasional lane and shoulder closures. Drivers should expect minimal delays throughout the project duration. Updated daily traffic information for this project can be viewed online at: www.ksdot.org/kcmetro/laneclose.asp.

The Kansas Department of Transportation urges all motorists to be alert, obey the warning signs, and “Give ’Em a Brake!” when approaching and driving through the project work zone.

Total Electric Contractors (Edwardsville, KS) is the primary contractor on this $268,977 project. The tower lighting project is scheduled to be completed in early September 2013, weather permitting.

This project is funded by T-WORKS, the transportation program passed by the Kansas Legislature in May 2010. Find out more about this and other T-WORKS projects at: http://kdotapp.ksdot.org/TWorks/.
For more information on this project, please contact Kimberly Qualls, Northeast Kansas Public Affairs Manager, at (785) 640-9340, or Howard Lubliner, Olathe Metro Engineer, at (913) 764-4525. (KDOT Project #35-46 KA 2502-01)
