**I-70/Central Avenue interchange survey to begin Monday in
Wyandotte County**

A Kansas Department of Transportation (KDOT) field survey will begin Monday, April 10, at the I-70/Central Avenue interchange in Wyandotte County.

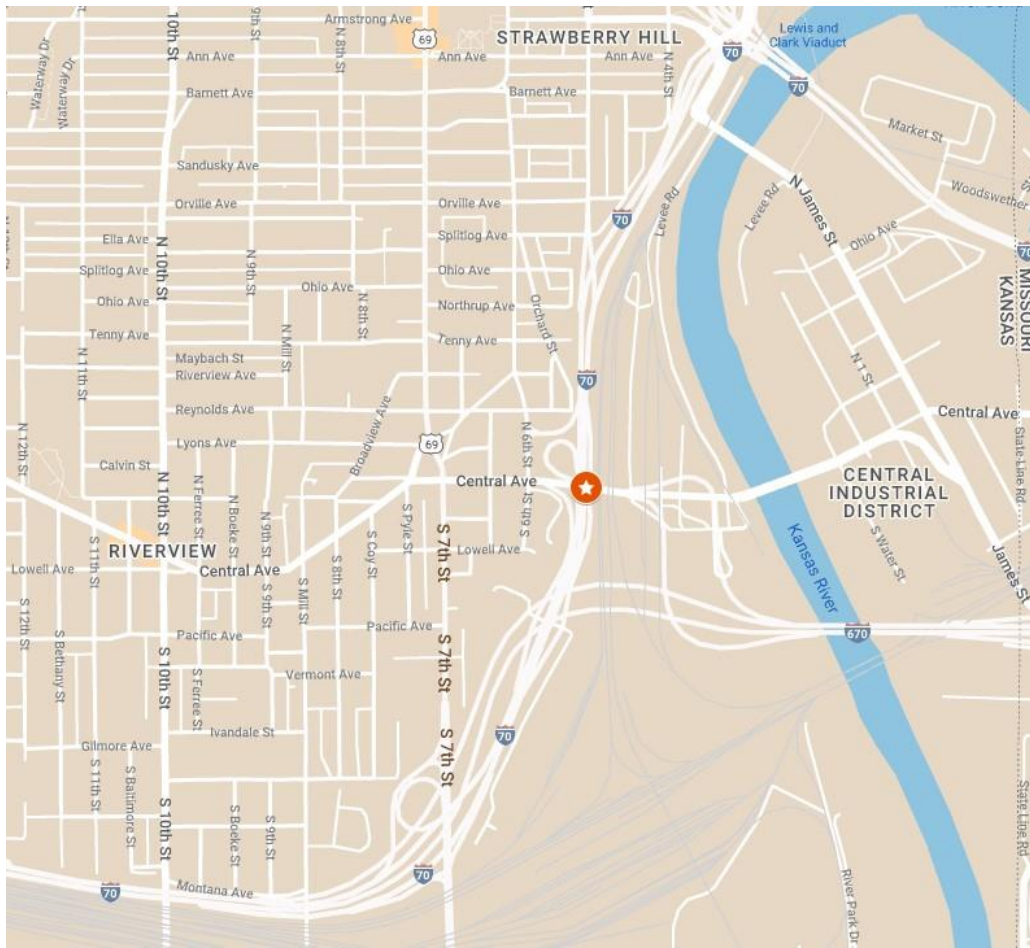

This survey is to gather information necessary for the detailed design of the proposed improvements related to design and construction of the I-70/Central Avenue interchange.

The survey area includes approximately 3,500 feet of I-70 and is estimated to be completed by December.

John Sommers, P.S., Survey Project Manager, of JEO, will manage this survey for KDOT.

A member of the survey crew first will contact property owners and/or tenants for permission to enter private property. Survey activities will include the use of survey instruments on the ground to determine locations of existing features within the survey corridor.

Map below shows survey location marked in orange.
